

Closing Ceremony of the Life Story Booklet

I am very glad and honored to be invited to do this meaningful activity. Not only can I help the elderly to record their past memories, but I can also learn more about the culture and history of Hong Kong. For example, I learnt that in the past, people were very hard-working but tough. Although they faced many difficulties, they tried their best to overcome them. I am surprised to find out from them that bus fare and bread in the past cost less than a dollar. These are something that we cannot learn in our textbooks.

ZENIA CHAN (3E-1)

The elderly participated in this activity are very willing to share their memories with us. They didn't give up even when facing any adversity, they worked very hard for their next generation to have a better life in the future. They made me understand that we have to be respectful towards the elderly. I really think the elderly deserve our appreciation.

DOROTHY YOUNG (3B-36)

I thought the elderly was obstinate and difficult to communicate with before I took part in this activity. However, I realized my opinion on the elderly was totally wrong after participating this event. If we pay more attention and patience for what they said, we will know that they are very active and expansive. They are really willing to share their memories.

I am honored to attend the closing ceremony and shared my feeling with others. During the event, I was given the opportunity to express my thankfulness to the elderly who spent time to share their past with us.

GLADYS LING (3E-21)
